

CPD: Single Ply Roofing Membranes....On the Crest of a Wave

This CPD demonstrates the inherent design flexibility of PVC single ply roofing systems that make them suitable for a wide variation of applications. It looks at single ply's sustainability performance and incorporation within Health and Safety/CDM regulations, as well as its ability to be incorporated in the basic concepts of the industry's need to adapt to more efficient application methods, referred to as Re-thinking Construction.

Contents

- Design flexibility
 - Barrel Vaults
 - Domes
 - Complex Curves
 - Modern Architectural Designs
- Sustainable Performance
 - Environmental
 - Social
 - Economic
- Health & Safety/CDM
- Rethinking Construction
- A Commitment to Better Roof Design

Duration

40 minutes

Handouts available

Full Protan technical literature
Product samples

Areas Covered

- East Midlands
- Eastern
- London
- North West
- Northern
- Scotland
- South East
- South West
- Southern
- Wales
- West Midlands
- Yorkshire
